NEW YORK, Nov. 24.—A dispatch from Washington says Gen. Grant in a letter to Admiral Ammon, acknowledges the receipt of a letter from the admiral in regard to the mission of Thomas De Franco, representative of the Nicaraguan government, who has come to this country to aid in the formation of a company to construct the Nicaraguan canal. Grant says he will be in Philadelphia on the 16th of December, where he would be pleased to meet De Franco and exchange views upon the object of his visit. There is considerable speculation as to whether Gen. Grant will immediately accept the task of organizing the company. It is said the salary proposed is $25,000 a year, until the canal is in working order, when it is agreed to increase it to $50,000.

Horrible Double Murder.

VIRGINIA, Cass county, Ills., Nov. 24.—One of the most unprovoked and cold-blooded murders ever chronicled was committed on Sunday at a farm some ten miles north of this place. Taylor, also brothers, came along on horseback, dismounted and saying they were now going to settle a feud which had existed between the families, immediately began stabbing one brother, who [illegible] with a knife thrust through the lung. They then turned upon the other brother, who being unarmed, attempted to escape. They caught him and plunging a knife into his neck, severed the jugular vein. As to Choosing Electors.

[From the Chicago Tribune.]

The democrats in Florida and Louisiana, and perhaps in other southern states, propose to change the present law, and have presidential electors chosen by the state legislatures. This will be done to prevent any stumping of these states next year by republicans from the north. Under the constitution, these southern states may do this. Presidential electors are to be appointed in such way as the legislature of each state may by law provide. The power to appoint the electors by the legislature direct is clear and unquestionable. It was the early practice, and was continued by South Carolina down to as late as 1860. But the power to do this is not confined to the southern states. It may also be exercised by every northern state. To adopt this rule would save an immense trouble next year. It would spare the country all the excitement, expense, and demoralization of a long campaign. Nor would the result be uncertain. The legislatures of all the states will meet this winter, or may be convened in special session by the governors. These legislators have only to provide by law that they shall be in session on the Tuesday after the first Monday of November, 1880, and on that day shall proceed by ballot in joint session to elect electors of president and vice-president. The legislature of every northern state except Indiana and perhaps Oregon is now controlled by a republican majority. With the exception of these two states, the legislatures elect would choose presidential electors to vote for the republican candidates. This would simplify matters very much. It would avoid a question of contested elections, would fairly represent the sentiment of the country, and be certain to result in the choice of a republican president. If the solid south intends to resort to this process—an entirely constitutional one—let the south go ahead, and possibly the north may follow the example, and settle the election without the partisan excitement of a popular canvass.

Rayburn, for seduction, at Corvallis, was on the stand the greater portion of Tuesday in the presence of the number such trials usually attracts. The progress of the court was greatly impeded by the frequent demonstrations of anguish and rage by the witness. Towards evening, in cross-examination, she exclaimed: "I want to die, and I will die," and drew a revolver from her pocket, cocked the same and placed the muzzle to her temple. Before she could discharge it, however, Judge Watson, who was nearest the girl, prevented her from so doing.

Ainsworth, Theodore Wygant & Co. for a large amount of money. The property sold is considered one of the best mines in this county, and by the right management will prove beyond doubt of great value to present owners.

Centerville is improving rapidly. BOOK NOTICES.

LA SALLE AND THE DISCOVERY OF THE GREAT WEST. By Francis Parkman. Boston: Little, Brown and Company.

The region usually called the "Great West" first became known to the world through French explorers. This is the region of the upper Mississippi and its affluents, including the country of the upper or western members of the chain of great lakes which have their outlet through the St. Lawrence river. The Mississippi was discovered by the Spaniards, at some now unknown point on its lower course. Its discoverer, De Soto, was buried beneath its waters. This was in 1542. A century passed before an explorer reached a northern tributary of the great river, which meantime had been almost forgotten. And nearly forty years more elapsed before civilized men sailed on the mighty stream which divides the continent. The first man who passed from the lakes to the Mississippi and followed the great river to its hitherto unknown way into the gulf of Mexico was Robert Cavelier, better known by the designation of La Salle—a man of extraordinary force, intrepidity and courage, and the most famous of the early French explorers of the interior of the American continent.

The volume before us is a history of the man, his expeditions and discoveries. Born at Rouen in 1643, he sailed for Canada in 1666 to seek his fortunes. Arriving at Montreal he heard rumors of the west which inflamed his desire of discovery. Like all the early explorers, he dreamed of a passage to the South Sea, and hearing of a great river he conceived that it must needs flow into the gulf of California. If so it would give him what he sought, a western passage to China. His imagination took fire; and gaining the favor of the governor of Quebec he organized a small party and set out towards the upper lakes. Of this first expedition there is no very clear record. Yet it is pretty certain that La Salle on this occasion, after passing into Lake Erie, left the lake and proceeded southward into the interior till he reached a tributary of the Ohio, and descending it, followed the river as far as the rapids at Louisville. Then retracing his steps to the lakes, he ascended to Lake Huron and thence to Lake Michigan, and passing over to the Illinois river followed it, perhaps to its confluence with the Mississippi. This was in the years 1669 and 1670. La Salle now returned to Canada, but was still full of his purpose of exploration and discovery, which he made further preparations to carry out.

Among his contemporaries were Joliet, Marquette and Hennepin. The two former were the first who saw the Mississippi above the mouth of the Illinois. From Green Bay they ascended the Fox river, passed over into the Wisconsin and descended the latter to the Mississippi. This was in the year 1673. Passing down the Mississippi, they extended their voyage as far as the Arkansas, and returning through the Illinois they made their way back to Green Bay. In 1674 Marquette was at Chicago, and the following year was preaching to the Indians in the interior of Illinois. An ardent Jesuit, his purpose was the propagation of his religion, and for this he wore out his life, dying in the wilderness in 1675. Hennepin was probably the first European who saw the falls of Niagara; his sketch and description of which were the first ever published. But he was an untrustworthy traveler. Some years later he published a narrative in which he professed to have anticipated the explorations and discoveries of La Salle on the Mississippi and its principal affluents; and it is part of the task of Mr. Parkman in this book to expose and refute his untruthful report. But he performed great service in these western discoveries, and at last died in Europe, where the largely fictitious stories of his travels found many readers and gained for him wide celebrity.

Just two hundred years ago La Salle was in the Chicago river, and at the site where now stands the great city of Chicago. During 1679 and 1680 he extended his travels to many parts of the country bordering on the lakes and the upper tributaries of the Mississippi. It was not till 1681 that the expedition was organized under his direction which accomplished the exploration of the great river to the gulf. His party crossed over the Chicago portage to the Illinois, following the latter to its junction with the Mississippi, floating down past the Missouri, the Ohio and the Arkansas, and at last reaching the delta and coasting along the low marshy shores, till "the broad bosom of the great gulf opened on their sight, tossing its restless billows, limitless, voiceless, lonely as when born of Chaos, without a sail, without a sign of life."

La Salle took possession of all the country drained by the river and its tributaries in the name of Louis Le Grand, the great king of France. Thus on that day the realm of France received on parchment a stupendous accession. Louisiana was the name bestowed by La Salle on the new domain of the French crown.

This was in April, 1682. The explorers on their return made their toilsome way against the current, and in 1683 arrived in Canada, whence La Salle sailed for France. Here he fitted out an expedition to sail for the mouth of the Mississippi and plant a colony there. In the year 1684 he arrived in the gulf, but missing the river landed at some point west of it, probably in Galveston Bay. It was impossible to ascertain whether he was east or west of the river, and much time was spent vainly in the endeavor to solve the problem. His vessel being wrecked his perplexity was increased by the great difficulties of his position. Finally after long effort it was decided that the party was west of the river, and it was determined to take a northwesterly course till the river should be found, and then push on to Canada. A small colony was left at the head of Matagorda Bay, and La Salle with a number of his hardy companions pushed out across the country. The march was a desperate undertaking, but it was the only thing left. The energy of La Salle was marvelous. He was, withal, a man of imperious character and iron will. In his party a conspiracy was formed to murder him by two or three men who [illegible] and were incensed at its [illegible] result, and who, moreover, were enraged at the [illegible] reserve [illegible] of their leader. STUFF AND NONSENSE.

The Kellogg-Spofford Investigation Dragging its Slow Length Along—Trivial and Pointless Testimony.

[SPECIAL DISPATCH TO THE OREGONIAN.]

NEW ORLEANS, Nov. 24.—In the Kellogg-Spofford case to-day Manager Allen of the Western Union Telegraph, the deputy [illegible], stated that he had been instructed to comply with the demands of the committee [illegible] telegrams specifically called for within a period specified. The dispatches, twenty-six in number, were handed to the chairman, who ordered a receipt to be given for them. The messages were in cipher, except one from Morris [illegible] the adjournment of congress.

Senator Hill asked [illegible] if he knew what the dispatches contained.

Witness—I do not.

Senator Cameron—Better send for Tilden.

W. H. Seymour, [illegible] testified regarding affidavits made by Jeremiah Blackstone, a member of Packard's legislature and others showing that they had been paid money to vote for Kellogg. Seymour testified that a paper produced was not Blackstone's original affidavit, but the substance of it. The paper referred to that Blackstone at various times received money from Kellogg and Lamb, Lamb authorizing him to use it as directed by Kellogg to secure Kellogg's election. Witness repeated part of a conversation which occurred in his office between members of a committee of the Nicholls legislature and others with Blackstone about bribery. Blackstone said that he could get affidavits of parties to whom he paid money, corroborating his statement. These affidavits were also produced and filed with the committee. In conversation Blackstone said that the money had been paid to bribe him as a prominent republican in the ward and as a member of the legislature. One of the party accompanied members of the Nicholls legislature to my office to see Blackstone and promised to reimburse him for his outlay in getting up affidavits. Blackstone afterward told me that he received money from them, but with the distinct understanding that the money paid by democrats was not for bribery or anything of that sort, but was to pay the expense he incurred in going after testimony. Witness stated that the committee of the Nicholls legislature appointed to investigate the Kellogg-Spofford case never made any report.

J. F. Barrignon, assistant sergeant-at-arms of the Packard legislature, testified that it seemed to be the general understanding that every member of the Packard legislature was paid for his vote when Kellogg was elected United States senator; saw Kellogg speak to Senator Twitchell one day in the telegraph office, telling him that he wanted his vote and would give him one of the best positions in the government. At the same time Kellogg handed Twitchell $50. Twitchell remarked that it was all right. Witness had been in the custom house, but was discharged last July.

J. S. Antz testified: I formerly held a place in the custom house, but was displaced a few months ago by Kerns. Gov. Wells wrote a letter to the officials of Cass county, Texas, informing them that a defaulting tax collector of that county was in Louisiana, and when he had been arrested and taken out of the state on this false charge another judge was appointed. Witness recently applied for a position in the custom house, but was not appointed.

The committee adjourned till to-morrow, when witnesses for Kellogg in rebuttal will be called.

An association of ladies in Pennsylvania have succeeded in purchasing the house which Gen. Washington occupied as his headquarters at Valley Forge, and have begun a movement to buy the 2000 acres adjoining, in which the old breastworks are still in good preservation, and erect a soldiers' home there. By the time the building is completed it will be necessary to buy some soldiers for the home.

The Atlanta *Constitution* thus compliments the Bourbons of Yazoo: "Yazoo elected the straight ticket. We are glad of it. To have suffered defeat after defeating the democrats in Ohio and several other states would have been sad, indeed. We regret that the press of other matters will prevent us from formally congratulating Yazoo in this edition."

"My love," said an adoring husband to his second wife, as they were leaving the church where they had just been married—"my love, how embarrassed you seemed to be. I was afraid you wouldn't get through with the ceremony." "Oh, well, you know, my dear, this is my first marriage. Next time I shall be as cool as can be."

It is grimly announced that Gen. Butler will be a candidate for governor of Massachusetts next year. There is nothing like being early in the field.

Col. Ingersoll receives on an average one ill-written, ungrammatical postal card a day, challenging him to discuss religion with some country minister.

SURVIVAL OF THE FITTEST.

Brief notice has heretofore been published by THE OREGONIAN of an article in the last number of the *North American Review* by Prof Francis Bowen which undertakes to demolish Darwinism. Careful reading of the article which in many respects is an able one discloses the fact that the writer has unwittingly furnished strong arguments in favor of the theory he opposes. He argues against the law of survival of the fittest but has strangely mistaken the idea of the fittest — that is the most fit to survive for what is actually best. Darwin's law does not hold that the best species will survive but that those will survive which are the best suited to their environment. Prof Bowen cites facts long recognized to prove that the highly cultivated species of plants and animals become sterile and argues therefrom against the law of survival of the fittest. This is a strangely erroneous statement of the position. It does but show that the culture which so changes the character of a species as to cause it to produce something very desirable does not fit it in the greatest degree for the struggle of life. A noted writer W R Greg in an essay against the doctrines of Malthus has fallen into the same mistake here noticed in the article of Prof Bowen. By these writers it is particularly urged as evidence of the fallacy of the doctrines elaborated by Malthus and Darwin that the better classes of human beings are less prolific than the poor and degraded who are subjected to many discomforts and privations that while the educated and wealthy live in the enjoyment of many luxuries, and are not exposed to hard struggles encountered by the poor the tendency with them nevertheless is to die out while others accustomed to hard battle for existence, increase in numbers. Now experience shows that the classes having this hard battle to fight are the very ones best fitted to survive, and that the enervation caused by luxurious living unfits men for the struggle. The same is true of animals of the lower orders hence for example, the highly improved breeds of swine cease soon to be prolific, while those which get little care are never housed and fed, and literally have to "root or die" multiply in numbers, and often with inconceivable rapidity. It is curious to observe that this argument, though employed by writers against Darwinism is in fact one of the strongest arguments used by the advocates of the Darwinian idea. Scotland is a cold, dreary and uninviting country, in which vigorous effort is necessary to gain subsistence yet it has brought forth men of superior intellect and robust frames, while the nations inhabiting the genial climate of Southern Europe, the descendants of vigorous ancestors, have degenerated morally as well as physically and intellectually. Many thoughtful men do not accept the theory of Darwin but very generally they acknowledge the necessity for energetic exercise of mind and body, with exposure to the sun and air and the changes of the temperature, to produce those qualities which best enable human beings to succeed in the strife for existence and the true enjoyment of life. Work is the fiat of nature, and those who avoid it must expect to deteriorate. And right here we find the great secret which tells what is the matter with our native races. Improvement among them is possible only as they can be forced to work. If the loss of paradise be an allegory, a great truth as to the necessary harmony of man's condition with the original curse is conveyed under it.

POLITICAL DRIFT.

The New York *Herald* professes to have advices through its southern correspondents that there is a real possibility of Grant being in certain contingencies the favorite candidate of a large portion of the southern people. One of these correspondents, who has been making a tour of six weeks' duration through the southern states reports that to his "utter amazement" he has found Grant as the possible president freely and favorably canvassed by representative southern men of all classes and professions. Some of the southern states, he is sure, would be for Grant as against Tilden.

On the other hand the *Tribune* ridicules the alleged "Grant boom" in the south, saying that though a large number of southern democrats are reported as favoring it, nearly all of them request to have their names withheld. It concedes that those who allow their names to be given may be most excellent persons in their various localities, but the American public now has the rare pleasure of resting its eyes upon their names for the first time.

The *Sun* contributes its share to the discussion of Grant's relations to the coming presidential contest by asserting that the plan of giving him the presidency of the inter ocean canal company is a scheme prepared by republicans to get rid of him as a candidate for 1880. It asserts that the connection of Grant's name with the Nicaraguan scheme is an intrigue to take him out of politics, and his boomers fear he may be caught in the trap. Hence the *Sun* asserts that they have warned him that the men who are engineering the job have always been his enemies, and that he would do well to look out for them.

"In view of the gravity of public affairs, and imminent peril to representative government," T H Murch, "chairman congressional committee national greenback labor party," and F P Dewees, "chairman national committee national party," issue a call for their respective committees to meet in conference at Washington City on the 8th January. There are many who will hear with concern that representative government is in imminent peril, though they had already observed that the gravity of public affairs had pretty well ended the career of the "national labor greenback party." The call also proposes that the committees in conference shall fix a time and place for holding a national convention, for the purpose of adopting a platform and placing in nomination candidates for the presidency and vice presidency.

Knowing that there is an actual republican majority in each of the states of South Carolina, Florida, Louisiana and Mississippi and fearing that through possible circumstances or accidents the arrangements for bulldozing might fail, the democrats of those states, to guard against the danger that the republican majorities might appear in the canvass of the returns in 1880, proposed a short time ago to have the presidential electors chosen by the state legislatures which they now control, instead of by the popular vote. This would indeed be a constitutional proceeding but since the [illegible] elections it has been thought best not to attempt it. For the northern states would appoint electors in this way as well as the southern and as the republicans now have control of the legislatures of all the northern states except Oregon and Indiana it is deemed prudent by the politicians of the south not to set the example. So the scheme is abandoned. In no southern state will the electors be appointed by the legislature as it would be done were not the north so solid as it is.

Among the strongest signs of a parliamentary revolution in England it has been pointed out is the changed temper of the liberal party. In many ways the liberals are evincing a spirit of reciprocal compromise and consolidation. They have profited by the severe schooling of defeat and it seems not improbable that they may have a majority in the next parliament over the conservatives. There is every indication that the home rulers, if united, will hold the balance of power in the new body. If the liberals should form a coalition with the home rulers and succeed in giving the present needs of Ireland they will have gained the lasting gratitude of Ireland and perhaps secured a long and uninterrupted lease of power in the popular branch of parliament. In special elections held since January 1876 the liberal party has gained fifteen seats in the commons, and its aggregate majorities at the polls have increased in much larger ratio. The general elections will take place probably about a year hence.

Our readers doubtless have noted that application is to be made to Gov. Thayer to commute the sentence of death pronounced against Ah Lee for the murder of a fellow Chinaman in the lodging house in this city, to imprisonment for life. It is not easy to see that any principle of justice requires the exercise of the executive clemency solicited in this case. Ah Lee has been tried twice for the offense for which he is condemned and both times has been found guilty of murder in the first degree. We are not aware that any new facts have been developed to show that the verdict is not substantially in accord with the requirements of law and of justice. It is a good thing however that the governor has adopted the new method of hearing and dealing with applications of this kind since thereby the public will be advised what reasons if any, can be assigned for requests like the present one for the interposition of executive authority to stay the course of the law.

The annual report of the bureau of statistics just published shows that the excess of the value of exports of merchandise over the value of imports during the last four years has amounted to $753 000 000. The exports of merchandise during the last ten years have increased from $275 000 000 in 1869 to $698 000 000 in 1879. The value of the exports of bread and breadstuffs during each of the last two years has exceeded the value of the exports of any other single commodity during all the years preceding 1871. From the year 1821 to 1860 the exports of cotton constituted 53 per cent of the total value of exports of merchandise but during the last two fiscal years it has only amounted to about 25 per cent. Cotton is a dethroned and discrowned king.

The country east of the Cascade mountains is greatly in want of lumber and one of the most important services to be rendered by the projected railroads is that of supplying this want. So soon as the railroads are put in operation the business of supplying lumber for the upper country will become a large and most important industry. Settlement of that section will proceed at a much more rapid rate when lumber can be had. This want has always been one of its greatest drawbacks.

TUESDAY MORNING, NOV. 25, 1879.

WEATHER PROBABILITIES.

SPECIAL DISPATCH TO THE OREGONIAN.

WASHINGTON, Nov. 24—12:30 A. M.—For Pacific [illegible] regions, clear and cloudy.

CITY.

"GOT IT BAD."—The walking mania has seized the small boys of the city and will probably be of practical benefit in cultivating their lungs and in hardening their muscles. The boys attending the Park street school have carefully measured the distance around the park block in front of that building and during recesses compete for the palm of speed, frequently making their "laps" in remarkable time. A company of boys living in the neighborhood of the old academy have taken possession of the old school yard and improvised a sawdust track upon which, at most any hour half a dozen or more may be seen with shoes, boots and jackets off speeding around. Another large course has been laid out back of Tanner's creek and on Saturday a company of more than one hundred boys from four years old upwards assembled to see a grand free-for-all, go-as-you-please, five-mile race in which twelve or fifteen competed. Portland has the mania and has "got it bad."

A "FREEZE-UP" FEARED.—Several firms of this city having orders for material to be used in the construction by the N. P. R. R. Co. on the line connecting at Ainsworth received telegraphic instruction yesterday to ship immediately, fast freight, as there is some danger that the Columbia river will close up. The weather east of the Cascade mountains and in the northern regions through which the Columbia flows is and has been unusually cold, causing the formation of heavy ice, which will soon come down in large blocks and a long blockade of the upper river is generally feared. The railroad company will hurry its freight through to Ainsworth so as to avoid delay of their work; but the loss to the people of Eastern Oregon and Washington in the delay of grain and other products will be large and unavoidable.

MISS DUBOIS' CONCERT.—To-morrow evening Miss Belle DuBois will give a grand vocal and instrumental concert at New Market hall, full particulars of which will be found in another column. The box sheet was opened at D. W. Prentice & Co's yesterday morning and in a few hours most of the seats in the dress circle were reserved. There are few seats left, and those who expect to attend the concert should not fail to secure them at once. A very excellent programme will be rendered; many of the leading professionals of the city having volunteered for the occasion. Mrs. Elly DeFries has kindly volunteered and will appear. We have been requested to state that tickets will be sold for the gallery at the door.

MOVING THE TRACK OVER.—Early yesterday morning a force of men commenced to move the railroad track along Fourth street, beginning at a point opposite the intersection of A street. The rails are moved over several feet west of the center of the street and laid down on new ties. While the old road bed is being filled up to the required grade with broken stone, the trains will pass up and down on the temporary track. When the road bed has been prepared, the track will be pushed over to the center of the street again. The new track will be laid for the present as far south as Morrison street. The work of filling up and ballasting the old bed is being pushed vigorously forward by the contractor.

THE GOVERNMENT LAUNCH CHELAN.—The government launch Chelan made her trial trip yesterday from the foot of Morrison street to Swan Island and return. She is a handsome model, 52 feet 6 inches long, 10 feet beam, with 4 feet 8 inches depth of hull and draws 3 feet 6 inches. She was built by Mr. J. R. Sorensen at a cost of $3750. She has a horizontal, tubular boiler and a 10 by [illegible] engine, manufactured by Smith & Watson. Capt. Edward Spencer will take the helm and J. McAnderson the engine. The launch is intended for the use of the new fort to be established on Lake Chelan, Washington territory, and will leave for her destination to-day or to-morrow.

A BLOCK OF HOUSES.—Eight handsome dwellings are under way on the block bounded by Yamhill, Second and Market streets, owned by Mr. S. G. Reed. These houses are large and well arranged, fitted with modern conveniences and will add greatly to the appearance of the quarter in which they are located. At the rent rates now ruling dwellings pay a handsome percentage of interest, and investments of this kind in good locations are largely sought for.

SIGNS OF THRIFT.—There are many signs of thrift about the charming summer resort of Ilwaco, says the *Astorian*. The streets are being straightened to correspond with the plat, and many new cottages and some permanent residences have been erected. One [illegible] has been bridged, and a new road started from the town to the Shoalwater bay. Everybody appears delighted with the future prospects and growth of Ilwaco.

"HOME EVENINGS." — The ladies of the [illegible] church give to-night the first of a series of "Home Evenings," to be repeated [illegible] weeks through the winter. There will be no formal programme, but the evenings will be enlivened by songs and readings, instrumental music and games for the young people. All friends of the church and strangers are cordially invited. Admission free. Refreshments for sale.

FROM ASTORIA.—A dispatch from Astoria to the merchants' exchange yesterday at 4 P. M. says: British bark *Beulah*, in tow of the *Wonder*, arrived down at 11 A.M.; ship *City of Cashmere* crossed out this [illegible] 24th, 4 P. M.—Br. bk *Carnegie*, from outside, arrived at 4 P. M.; Br. bark [illegible] and ship *Eliza McNeil* are outside the bar.

TIES AND TIMBER.—Persons who may be interested in the tenders for ties and timber wanted by the Oregon Railway and Navigation company will note the additional advertisement published to-day. All bids are to be addressed to Capt. J. C. Ainsworth of the company.

ACCEPTED.—Yesterday the work on Fifth street, East Portland, from I to J, was inspected and accepted by the city authorities. The work consisted of grading the street, [illegible] 16 feet and laying sidewalk on the sides of the thoroughfare.

SURVEY.—The party of engineers surveying the Utah Northern Railroad arrived within [illegible] miles of East Portland yesterday. They have completed the survey to that point. They will reach this city during the fore part of next week.

PEOPLE'S MEETING to-night at the [illegible] church, commencing at 7:30, sharp. These meetings are a great deal of benefit to young and old, we ask every one to join with us to-night.

UNITED IN WEDLOCK.—Yesterday morning [illegible] Fitzgerald and Miss Lillie Denman, the well known walkists, were united in marriage by Rev. A. S. Coats, of the Baptist church.

THE U. S. DREDGE.—The government dredge has begun work widening the channel at the lower end of the bend above Swan Island, and will continue work in that vicinity for several weeks.

VERY ILL.—Officer Henline who has been seriously ill for several weeks with pneumonia, has suffered a severe relapse and is at present lying at his residence dangerously sick.

AN INSANE PATIENT.—Sheriff Perry, of Grant county, arrived here last evening, having in custody an insane patient, who was committed to the asylum.

A FINE RESIDENCE.—Mr. Samuel D. Smith, of the Occidental hotel, is building an elegant residence on the corner of Twelfth and Yamhill streets.

STEAMER OREGON.—The steamer *Oregon* arrived at San Francisco last Saturday at 1 P. M., 42 hours from Astoria.

FIRE AND WATER.

THE PALACE LODGING HOUSE TAKES FIRE UNDER THE ROOF AND IS BADLY DRENCHED.

About half past ten o'clock last night cries of "fire" from a dozen voices came down Morrison street from the vicinity of Third. No. 1's were on hand quickly, and soon a general alarm was sounded from their house, which was responded to promptly by all the companies. A slight blaze had broken out in the water closet in the rear of the Palace Lodging House on the northwest corner of Third and Morrison streets, and had crept under the roof of the building. A stream was thrown against the back of the block, and several over the roof, but nothing was accomplished towards extinguishing the flames until water was thrown against the roof and between the partitions from the inside. The covering of the block being of tin, the flames did not burst out, and there was little damage by fire. The whole building was thoroughly drenched except the last two divisions on the north.

The block was occupied on the first floor by the following persons: John S. Miller, shoe store; Victor Volney, picture frames; Bichel & Minville, dress makers; D. W. Williams, school clerk's office; Howe Sewing Machine Co.; Olds & King, dry goods; and F. Opitz, bakery. Mrs. Manifee occupied nearly all of the second story as a lodging house. Most of her furniture was taken out before much damage was done. What little loss was sustained is covered by a $2500 policy in the Commercial. Ed. R. Hill and Dr. C. M. Wood, who have rooms in the block, met with only trifling losses.

Alisky & Hegele own the block except the buildings occupied by Olds & King and F. Opitz, which belong to John Wilson. Alisky & Hegele have an insurance of $8000. Their loss will be between $1000 and $1200. All the occupants of the lower floor had their goods damaged slightly by water. Miller has a policy of $2500 in the Western; Volney, $1500 in the State Investment; Olds & King, $2500 in the Commercial, $2500 in the State Investment, $3500 in the Western, $2500 in the New Zealand, and $4000 in the Mutual. Bichel & Minnville, and the Howe Sewing Machine Co. had no insurance. The combined losses to the lower floor occupants will probably not exceed $1200. The fire is supposed to have caught from a cigar stump.

Chief Lappeus and the police force generally deserve praise for their watchfulness over the property of the occupants, both against rough handling and pillage.

Matters remain unsettled in police circles. The work of decapitation still goes bravely on.

COURT NOTES.

A special term of the circuit court will be held at Oregon City, commencing on the 1st of December. This will be for the trial of the persons charged with the murder of Mrs. Hagar, and also for the transaction of other business.

James Harsey has been arrested on complaint of Frank Hobin charged with assault and also abusive language. Harsey will appear before Justice Wiley to-day to answer the charge. A counter charge of assault has been preferred against Hobin by Harsey in the police court.

PORTLAND CITY DISPENSARY.

Among the charitable institutions of our city one under the above name now presents a claim to our consideration. In connection with the medical college on Fourth street the faculty intend to establish a dispensary to furnish medical and surgical attendance and medicines without charge to such persons as may not be able to pay for them. Patients able to do so will present themselves for treatment at the institution, and those by reason of sickness not able to do so will be visited and supplied with medicines, as well as medical or surgical aid, at their homes. In large cities a pressing demand is felt for dispensaries as well as hospitals, especially in the winter. Unless sufficiently endowed both must be maintained by voluntary subscriptions, and we understand it is proposed to call upon such of our citizens as may feel able and willing to give aid in carrying out this enterprise to beg them to do so. It will be under the management of many of our leading and best known physicians, and, we doubt not, worthy of encouragement. For every $5 contributed annually the subscriber will be entitled to keep one meritorious patient at a time under constant treatment, and thus much good may be done at small expense. The attending physicians will have no pay for their services. The chief outlay will be for medicines, and for this subscriptions are asked. They may be given to Prof. Harvey or to Dr. Plummer, dean of the faculty, or perhaps the faculty may solicit for them personally.

THE WALKING MATCHES.

Miss Florence and Miss Wiley Complete their 1500 Quarter Miles. The Closing Exhibitions at Turn Halle.

A good crowd gathered at Turn Halle last night to the benefit of the pedestriennes, who realized quite a handsome sum from the receipts. Kadderly, Fitzgerald and McCafferty entered for the first race, the former running five miles, the two latter walking four. Kadderly won, making the distance in 36:33, Fitzgerald in 41:30, and McCafferty in 42:45. The four pedestrians then started, for an hour's "go as you please" race. Alice Bouney was suffering from a sprained ankle and left the track after making 2 miles and 7 laps. Miss Sherman made 5 miles and 27 laps, Alice Bunley 5 miles and 25 laps, and Miss Denman 5 miles and 21 laps. The prizes to the winners of the firemen's race were then distributed as follows: Wilson, $25 00; Johnston, $17 50; Thompson, [illegible]; Firemen's Aid Society $35 07; and it can be truthfully stated, parenthetically, that it is hard earned money for the boys. Charley Thompson and Tommy Norton then ran a three mile race, Thompson winning in 24:35. Score by miles:

Thompson—7:16, 7:40, [illegible]
Norton—7:40, 7:46, [illegible]

Simon and Kelly then gave an interesting sparring exhibition.

The party under the management of Levie & Thalo left on the *State of California* for Benicia and pastures new.

At New Armory Hall.

The walking mania will now steadily decline since the tournament in Armory Hall is at a close, but it is to be expected that it will leave traces of it behind for sometime to come.

The ladies who were engaged in the tournament at this hall take their departure with the best wishes of all who have seen them, particularly Miss Florence who, from the start, has been the favorite with all. Yesterday at 4:45 they completed their 1500th quarter, but still continued to walk until 7:15 last evening at which time they had completed 1536 quarter miles in as many consecutive quarter hours, a feat that was not without many misgivings on the part of the public that they would not be able to accomplish. At the finish both ladies locked arms and marched the last quarter to the music of "Hail to the Chief." When all but two laps of the last quarter had been finished both ladies started on a run which terminated in Miss Florence coming in the victor by about 25 feet. Thus ended the first and perhaps the best showing of endurance that Portland has or ever again will witness.

The race between the members of the various military companies still continues with unabated vigor, although several of the contestants have withdrawn they considering that this sort of amusement has no charms for them. At the present writing Sheridan has the best of the race, he having slept but little and avers that he will not retire until the close of the race which will be to-morrow evening. The following is the score: Sheridan, 132 miles; Campbell, 128, Dougherty, 125, Tuttle, 122.

The ladies will continue to give exhibition walks each evening now until the close of their engagement in this city, and to-night will inaugurate a series of matches by a ten mile go as you please race, between Miss Florance and Miss Wiley. This will be interesting, as both are anxious to try each other and are sanguine of success.

To-morrow night the long talked of match between George W. Lee and Teddy Smith will take place, distance 100 miles for a purse of $160 a side.

"THE GREATEST OF THESE IS CHARITY."

Ladies of the Relief Society would remind those who are kind enough to fill the Thanksgiving bags for the Home that they will be called for, so far as possible, the day before Thanksgiving, and if ready at that time it will greatly expedite matters. Should any be over looked they will be called for during the week, if left at either of the following places: Hacheney & Beno, First and Yamhill; Lanne, corner Second and Washington; Wm Wadhams', Front and Pine; Stewards, corner B and Park, and southwest corner of Jefferson and Eighth. Any preferring to give money can hand it to any officer of the society. There are now 24 children at the Home, and more furniture and bedding are still needed.

IMPORTANT ANNOUNCEMENT.—The musical community, both here and throughout the state, will be pleased to learn that Messrs. D. W. Prentice & Co., No. 107 First street, will receive in about ten days an immense invoice of sheet music, comprising the very latest and best publications. When these additions are received their stock will be the largest ever carried by any house on the North Pacific coast.

WM. SCHEFFLER'S ST. HELENA

SANITARY, VACUUM DISTILLED GRAPE BRANDY AND GOOD OLD ROSE HILL WINES.

Mr. Scheffler is sole proprietor of the principle known as the vacuum process of distilling, by which the fusil oils are left with the residue and not incorporated with the brandy, leaving it pure and free from all deleterious substances which does and must exist in all alcoholic liquors distilled by the usual process of boiling heat. *California Physicians* have pronounced their preference of it to all other. Doctor Cox government revenue officer at Cincinnati, Ohio, says in his report, that after ten years' of close investigation he can safely say that very few, if any, pure wines or brandy are exported from the Old Continent to this. He has found none in his many analyses—that all are doctored before leaving France. The French Consul at Buenos Ayres writes home to his government that so much complaint is made there of the appearance of litharge and other dangerous drugs in all their French wines, that there is great danger of losing the trade of the Argentine States. Other proofs could be cited were it necessary, to prove the superiority of the best class of California wines and brandy. Orders from responsible parties, addressed to Wm. Scheffler, or Geo. H. Beach, St. Helena, Napa county, Cal., will receive prompt attention.

THE MONUMENTAL MINE.

THE NEW MACHINERY IN FULL BLAST—AN ASSAY SHOWS $125 00 TO THE TON.

Several gentlemen connected with the Monumental Gold and Silver Mining Company returned to this city Saturday night from the mines in Grant county, and bring important information concerning the progress recently made. The new quartz mill, said to be the finest on the Pacific coast, was put in operation on the 11th inst. and run on waste ore. They suffered two or three breakdowns usually incident to starting new machinery, which delayed the regular work on good ore until the 17th. On that day they worked twelve hours on good ore. An assay was made from the battery and showed $125 00 to the ton, which is $65 better than Consolidated Virginia during its bonanza days. There are 50 tons of ore on the dumps as good as that crushed on the 17th. The ore is the accumulation of two years' development in the tunnel and drifts. A shaft has been sunk from the tunnel level, the bottom of which is 350 feet from the surface. Specimens of average ore brought by Mr. J. W. [illegible] from this depth, show richer quartz than has ever been found in the mine before, and warrant a prophecy which assures a golden future to its owners.

The lucky owners, among whom are Messrs. Stemme, Alisky, Knott Bros., Jas. D. [illegible] and Chas. S. Miller, Wm. Grant, Isaac Kaufman, F. C. Sels, C. P. Church and others, are entitled to great credit for their enterprise in carrying this costly undertaking to a successful conclusion. Not less than $250,000 have been expended by the Monumental company to bring this mine to its present development.

The secretary, C. D. Folger, remains behind and will accompany the first shipment of bullion to this city in about ten days or two weeks. Mr. Stemme and Mr. Knott stayed by the mill until everything seemed to be running satisfactorily, and started for here, where urgent business called them. They are enthusiastic over the prospect and confident of its future. To Mr. C. S. Miller, the superintendent of the mine, very much is due for earnest, long continued and indefatigable exertions to bring it to the present fulfillment of a promise he has always maintained and predicted for it.

This successful result is probably only a forerunner of numerous other mineral developments which may soon make Portland the center of a mining field as large and more profitable than centers at San Francisco. Alaska from the north, the numerous rich placer mines of Southern Oregon, and this contribution from our east, are indicative of a golden era in the near future for the Pacific northwest, with Portland as the hub.

A college professor once said that "he who expects to rise high in his class must not *expectorate* on the floor." Much of the hawking and spitting was no doubt caused by catarrh, which the professor knew could be readily cured by the use of a few bottles of Dr. Sage's Catarrh Remedy.

SUICIDE.

A distinguished Scientist once said: "No man with a strong, healthy stomach ever committed suicide, yet many suffer the torments of the damned with dyspepsia, when a single bottle of DR. MINTIE'S ENGLISH DANDELION LIVER AND DYSPEPSIA PILLS will give relief, and, if persisted in, cure the worse case of this distressing trouble. This pill cures torpid liver, biliousness, sallow complexion, foul breath, sick headache, heartburn, pain in side and back, removes pimples from the face, regulates the bowels, is sugar-coated and guaranteed purely vegetable. It acts directly on the coating of the stomach and on the liver; is suited to any climate, wet or dry weather. Beware of imitations; genuine has cut of lion on outside wrapper. Price, 50 cents. Sold by all druggists. Hodge, Davis & Co., Portland, wholesale agents.

How to Save Money.

Instead of going to a doctor, if you have Bright's Disease, Diabetes, pain in back and loins, smarting, inflammation, calculi, brick-dust deposit, or any trouble of the kidneys or bladder, buy a bottle of DR. MINTIE'S NEPHRETICUM, the great *Buchu Compound*. It is the best prescription ever compounded for these troubles. Abrams & Carroll, Wholesale Druggists, say: "*We regard Nephreticum as the best Kidney and Bladder Remedy in the market.*" Woodward, druggist, Portland, Oregon, says: "Everybody speaks highly of it." Childs, druggist, Portland, says: "Sold lots of it; it always does the work." Many have been cured of obstinate kidney complaints after the doctors gave them up. Sold by all druggists. Price $1 25. Hodge, Davis & Co., Portland, Wholesale Agents.

Sir Astley Cooper's Vital Restorative.

The great English remedy—has made more cures of Nervous Debility, Seminal Weakness, Lost Manhood, nocturnal emissions, lassitude, inability for mental labor, despondency, and such diseases as are induced by youthful follies and excesses, than all other medicines combined.

It is not a stimulant nor excitant, is perfectly safe to take, is not a *quack nostrum*, and produces results that are wonderful.

Price, $3 a bottle. Four times the quantity, $10. Buy a bottle. It will not disappoint you. Hodge, Davis & Co., wholesale agents.

JACK DOWD.

THIS NOTORIOUS BUNKO SHARP "GETS ON HIS EAR" AND ATTEMPTS TO "BULLDOZE" A SACRAMENTO EDITOR—PASS HIS RECORD AROUND.

The following appears in the Sacramento *Leader* of Nov. 14th:

On Thursday last a pompous personage entered the *Leader* office in company with a stalwart companion and demanded to see the reporter. The proprietor, amazed, told him that the gentleman of whom he was in quest was out, but added, "I am the publisher." "You'll do," was the reply, "I come here for justice, and justice I'll have! I have been maligned by this paper. I come for redress, I come [illegible], and I mean it, too!" The proprietor said, "Who are you, sir, and what is your grievance? I cannot and will not allow such talk in this office. Either be more respectful or leave here immediately. We do not tolerate threats." The reply to this was, "My name is Dowd," and produced a copy of the *Leader*, referring to the article the objectionable part of which is as follows:

"Even the [illegible] of Portland, Oregon is not without the acquaintance of this notorious personage. About a year ago Dowd was arraigned before the police court in that city for a glaring crime, and being convicted, served a term of incarceration therefor." After reading it he said, "I never was convicted in my life, and certainly not in Portland, and I refer you to the chief of police of that place." The proprietor said, "Very well, sir; if such is not the case we will correct it. But I shall first ascertain whether a retraction is in order." The following dispatch was immediately sent:

SACRAMENTO, Nov. 12, 1879.

J. H. Lappeus, Chief of Police, Portland, Oregon:
Was Jack Dowd, the bunko sharp, ever convicted of crime in Portland? If so, send date and cause.

In the course of an hour the reply came as follows:

PORTLAND, Nov. 12, 1879.

John A. [illegible], Publisher Sacramento Leader:
Dowd was indicted for larceny Oct. 12, 1877. He gave bond and forfeited it.

J. H. LAPPEUS, Chief of Police.

It will be seen that the action of Dowd rendered a conviction impossible, and if this evidence of justice on our part is at all flattering to Mr. Dowd, we are well satisfied and he is entirely welcome.

Forewarned Forearmed.

Physicians and invalids use with confidence The Kaiser celebrated German Elixir for Consumption and throat and lung diseases. It is rich in the medical properties of tar, wild cherry, etc. Is rendered perfectly harmless to the youngest child. This would have proved an Angel of Mercy in the household of those unhappy parents at Vallejo, Dixon, Beaver, Utah and numerous other places, whose children were slaughtered by quack medicine recommended by its owner to cure croup, possessing no properties calculated to cure it, but instead a deadly drug which has slain its thousands. Be sure you get only German Elixir. The genuine bears the Prussian coat of arms and the facsimile signature of Dr. Kaiser. Samples at all drug stores. Large size 75 cents.

Quinine and Arsenic.

Form the basis of many of the Ague remedies in the market, and are the last resort of physicians and people who know no better medicine to employ for this distressing complaint. The effects of either of these drugs are destructive to the system, producing headache, intestinal disorders, vertigo, dizziness, ringing in the ears, and depression of the constitutional health. AYER'S AGUE CURE is a vegetable discovery, containing neither quinine, arsenic, nor any deleterious ingredient, and is an infallible and rapid cure for every form of Fever and Ague. Its effects are permanent and certain, and no injury can result from its use. Besides being a positive cure for Fever and Ague in all its forms, it is a superior remedy for Liver Complaints. It is an excellent tonic and preventive as well as cure of all complaints peculiar to malarious, marshy and miasmatic districts. By direct action on the Liver and biliary apparatus, it stimulates the system to a vigorous, healthy condition. For sale by all dealers. Hodge, Davis & Co., wholesale agents, Portland.

Read and Learn for Yourself.

Many valuable discoveries and much useful knowledge is kept from the world, because of the immense expense in making them known to the people. This is not the case with BOSCHEE'S GERMAN SYRUP. Although but a few years introduced into this country, its sale now reaches in every town and village in the United States. Its wonderful success in curing consumption, severe Coughs, Pneumonia, Asthma, and all other diseases of the throat and lungs, was first made known by distributing every year, for three years, over 400,000 bottles to the afflicted, *free of charge*, by druggists. No such a test or merit was ever given before to any other preparation. Could you ask more? Go to your druggist and get a bottle, for 75 cents and try it. [illegible]

U. S. Circuit Court—District of Oregon.

FRIDAY, NOV. 21, 1879.

James B. Stevens v. Cragie Sharp—No. 536. Suit for injunction and for a conveyance.

(1) LIMITATION.—Cases of constructive trust being purely of equitable cognizance, lapse of time is no absolute bar to a suit for relief thereon; and when the trust arises out of the fraud of the defendant or those under whom he claims there is no fixed rule upon the subject, but each case is decided according to its own facts and circumstances.

(2) LOCAL STATUTE OF LIMITATIONS.—A state statute of limitation is not applicable in the national courts in a suit in equity, but under ordinary circumstances the limitations prescribed therein will be regarded as reasonable.

(3) PATENT—MISTAKE.—A married settler under the donation act fraudulently procured a certificate and patent to the wife's share of the donation to be issued to a woman not his wife: *Held*, that a court of equity had jurisdiction to correct the error by requiring the patentee or her assigns to convey the premises to the wife or her assigns.

DEADY, J.

This suit is brought to enjoin the defendant from enforcing a judgment obtained by him in this court against the plaintiff for the recovery of the possession of the north half of the donation of Edward S. Sexton and wife, situate in Washington county, the same being the S. ½ of the S. E. ¼ of section 20, and all of section 29 except the N. ½ of the N. W. ¼ thereof, in township 1 south, of range 1 west, of the Wallamet meridian, containing 320 acres, and to have the defendant convey the legal title of the same to the plaintiff.

Upon reading and filing the bill—September 1, 1879—an order was made that the defendant show cause why a provisional injunction should not issue. The defendant showed cause by demurring to the bill, which was argued by counsel on October 8, 1879. The material facts stated in the bill are as follows:

That in January, 1843, in Fulton county, Illinois, one Edward S. Sexton was married to Angeline Bilsbee, which marriage remained in full force and effect until the death of said Sexton; that prior to March 20, 1850, said Sexton left said Angeline and three children in Illinois and came to Oregon, where he, pretending to be unmarried, in March, 1850, intermarried with India Stephens, the daughter of the plaintiff; that on September 1, 1853, said Sexton settled upon the premises as a married man under the donation act and resided upon and cultivated the same for four consecutive years and otherwise complied with said act; that on January 31, 1868, a certificate was issued by the register and receiver of the proper land office to said Sexton and his wife for said donation, in which the north half thereof was designated as the part enuring to the latter and the south half to the husband; that in procuring said certificate to be issued said Sexton falsely and fraudulently pretended and represented to said register and receiver that said India was his lawful wife, and thereby procured and caused said certificate to be wrongfully issued to said India as the wife of said Sexton; that on May 5, 1873, a patent was issued for said donation upon and in pursuance of said certificate, in which said India was erroneously described as the wife of said Sexton, and the premises in controversy confirmed to her as such; that the plaintiff, on July 7, 1876, purchased the south half of said donation from said Sexton; that in 1870 1 said Angeline and descendants set up a claim to said donation, and the plaintiff offered to assist said India to defend against the same, when said India informed him that she had known for years of the existence of said Angeline, and that she had no doubt but that she was the lawful wife of said Sexton, whereupon he purchased the interest of said Angeline and descendants in said donation for the sum of $2500, and is now the owner and in possession of the same; that in October, 1873, said Sexton being dead, said India intermarried with one Samuel Rolfe, and in July, 1878, and during her last illness, said Rolfe procured said India to join with him in a conveyance to the defendant of all their interest in the donation; that in May, 1879, said defendant commenced an action in this court against the plaintiff to recover possession of the north half of said donation, in which he obtained judgment for such possession and $130 damages and costs; that said judgment was obtained solely upon the ground of the patent to India, and that until the same was given the plaintiff supposed he had the legal title to the premises.

The grounds of the demurrer are (1) that the court is without jurisdiction; (2) that the suit is barred by the lapse of time; and (3) that there is no equity in the bill.

The first ground is certainly untenable and was not insisted upon in the argument.

The objection that the suit is barred by lapse of time rests upon the assumption that § 378 of the Or. civ. code, which provides in substance that no suit of equity shall be maintained to affect a patent, unless the same is brought within 5 years from the date thereof, applies to a suit in this court.

But, as was held, by this court, in Hall v. Russell, 3 Saw., 514 and Manning v. Hayden, (Jan. 20, 1879, 5 Saw.) this statute is not applicable to suits in this court. In the latter case the rule applicable to this case is laid down as follows:

"In the consideration of purely equitable rights and titles, courts of equity act in analogy to the statute of limitations, but are not bound by it. * * * In cases of implied or constructive trusts, when it is sought for the purpose of maintaining the remedy, to force upon the defendant the character of a trustee, courts of equity will apply the same limitation as provided for actions at law. * * * * But when the trust is constructive and *also arises out of the fraud of the defendant*, there does not appear to be any fixed rule upon the subject. The matter is left to the equitable discretion of the court, to be decided in each case according to its nature and circumstances, subject to the qualification, that diligence must be used to establish a trust by implication, and that equity will not aid a party to enforce such a trust when the demand is stale or where there has been long acquiescence in the wrong."

Although a few days over 6 years had elapsed when the action was brought by the defendant which has resulted in this suit, still, practically speaking there has never been any actual acquiescence by the plaintiff in the alleged wrong, because he has been in the undisturbed possession and enjoyment of the premises since before the date of the patent with the knowledge and apparent acquiescence of the pseudo wife and those claiming under her until the commencement of this litigation. Under the circumstances, he can only be charged with an omission to bring a suit to quiet his title against a claim which was not asserted, and which, as he might well think, under the circumstances, never would be.

The patentee or those claiming under her had by the law of the state 20 years after the plaintiff took possession, within which to bring an action to assert her right under the patent, and in my judgment it is time enough for the party in possession to resist or countervail such right when it is asserted or set up. Indeed, in a case of fraud a delay of 30 years has been held not a bar to relief. (Michoud v. Girod, 4 How., 561)

But I admit that this court, sitting as a court of equity, when called upon to determine what delay will make a claim stale or show a want of diligence in its prosecution, so as to bar a suit thereon, should have regard to the periods prescribed by the law of the state in similar cases as evidence of what is deemed a reasonable rate in this state upon that subject. This being so, it must be borne in mind that on October 17, 1876, and before the commencement of this litigation the legislature amended § 378 so as to make the limitation therein ten years instead of five, and also declared that a party in possession and equitably entitled to the land as against the patentee might enforce his equity against such patentee, either as defendant in an action at law brought by the patentee to recover such possession or by a suit in equity within the time such action for the possession might be brought. (Ses. Laws, p. 25.) This is the latest legislative expression of what is deemed a convenient and just rule on this subject, and this court may safely hold in analogy to it that in the general a suit brought to affect a patent at any time within ten years from the date thereof is brought within a reasonable time. But there may be cases in which a less time would be a bar to the relief, and others in which twice that time would not be unreasonable, and such I think is this case.

The plaintiff is in possession and has been since before the date of the patent with little or no reason to apprehend that the claim of the pseudo wife as patentee of the premises, would, under the circumstances, ever be asserted against him, and now brings this suit to defend such possession against the defendant's action to deprive him of the same upon said patentee's bare legal title.

The plaintiff is entitled to maintain this suit notwithstanding the lapse of time since the issuing of the patent.

The only other question arising upon the demurrer is whether this court can grant relief against the fraud committed by Sexton in falsely representing to the land department that India instead of Angeline was his wife and the consequent mistake made by it in the issuing of the certificate and patent to said India instead of Angeline.

The donation act (§ 4, 9 Stat. 497) gave the wife of a settler thereunder one half of the grant in her own right on account of her wifeship. No other qualification was required on her part to enable her to claim and take one half of the donation. (Vandolf v. Otis, 1 Or., 153; Lamb v. Starr, 1 Deady 352; Fields v. Squires, Id. 376.)

It is admitted that Angeline was the wife of the settler upon this donation and not India, and therefore it follows necessarily that Sexton committed a fraud upon her, when in making proof of his marriage before the register and receiver he falsely represented that India was his wife and thus procured the certificate and patent to issue to India when they should have issued to Angeline. It seems hardly necessary to ask the question whether a court of equity can grant relief against such a gross fraud and palpable mistake as this. In my judgment there can be no doubt about it. (Johnson v. Towsley, 13 Wall. 83; Shipley v. Cowan, 1 Otto, 340.)

In these cases, the supreme court affirm that courts of equity have jurisdiction to enquire into and modify and annul the action of the land department for fraud or mistake other than an error of judgment in estimating the value or effect of evidence. (See also Aikin v. Ferry, decided in this court, November 7, 1879.)

Upon the bill the plaintiff is clearly entitled to the relief sought. The demurrer is therefore overruled.

Joseph N. Dolph for the plaintiff.

W. Scott Bebee for the defendant.

FINANCE AND COMMERCE.

Financial.

MONDAY EVENING, November 24, 1879.

Nearly all branches of business are prosperous to a moderate extent and mercantile men express a great deal of confidence in the future of the market and of trade generally. The late advance on imported merchandise of almost every class is well sustained, though the general belief is that the top has nearly been reached and more steadiness and less inflation will characterize the market in the future.

The local wheat market to-day exhibits a better feeling on the part of buyers and with more firmness generally. The quotation furnished by shippers is $1 97½, with $1 95 for ordinary lots, while those who have tonnage at hand for which they have not a cargo in sight might bid $2 which is an extreme, while it is claimed that $1 95 is what wheat is worth here at the present freight rates.

Flour, though quoted dull in San Francisco dispatches, is steady and firm here with a fair local and shipping demand, standard brands selling steadily at full quotations.

Oats are unimproved, shippers and jobbing houses buying cautiously at over 40 cts per bushel and bids above 42½c are difficult to obtain from any source. Hay in bale commands $16 per ton; loose, $14@$16. Provisions are tolerably brisk at full rates. Eggs selling at 40 cents with a prospect that this figure will be maintained to the close of the week.

The outlook in the country up the Columbia is having some effect on the wheat market, as any indication that this market would be shut off from supplies from that direction by reason of an ice blockade naturally would induce buyers to bid up a trifle for immediate delivery. The effect as yet is however limited, as cargoes for the vessels at hand and under charter are nearly all in sight, and with an impossibility of getting wheat down the Columbia shippers would not be in a hurry to take up any new vessels. There are a few ships now on the market, the asking price being about 67s 6d.

DR. PAUL M. BRENAN

The Most Successful Physician on the Pacific Coast,

IN THE TREATMENT OF ALL

CHRONIC AND DIFFICULT DISEASES.

HAS RETURNED AFTER AN EXTENSIVE tour of the Eastern States, for the past four months. The Doctor while absent visited all the principal Medical institutions in the large cities of the United States, and comes back with all the modern methods, instruments and appliances known to the most scientific men in the profession. The Doctor has also brought charts and manikins to illustrate his lecture.

DR. PAUL M. BRENAN has been fifteen years lecturing on the Laws of Life and Health. In his private and public lectures he has taught men and women the true system of life, how to be healthy and happy if they would only be guided by his wise counsel. But all cannot hear his delightful and instructive lectures, nor can he tell everything necessary for suffering humanity to know from the public rostrum before a promiscuous audience. There remains much to be learned from him as his experience extends over broad fields of active professional life. This knowledge so necessary to the welfare of the sufferer can only be gleaned by private Professional Consultation at his office.

His experience in the various parts of Europe and America give him such opportunities of learning the delicate diseases which the human family are prone to, their mode of treatment and permanent cure, as no other physician on the Pacific Coast can claim. He has not only treated these diseases most successfully, but has made them a life study, as a few moments' consultation will prove.

He has become an expert in the treatment of disease, weakness and derangement of the reproductive organs of both male and female, including diseases caused by the

FOLLIES OF YOUTH,

Such as SPERMATORRHEA, or SEMINAL WEAKNESS, or LOSS OF PERFECT VITALITY. Nearly two thirds of all the Chronic Diseases spring, either directly or indirectly, from some derangement of the sexual system, and yet this subject is neglected by the majority of the Medical Profession.

IT IS TRUE

That persons who are unfortunate enough to be afflicted by any form of sexual disease have a delicacy in calling upon the proper physician in time, from a sense of modesty and sometimes from ignorance, and permit these diseases to exist until their constitutions become corrupted, their organization broken down, and the hope of future happiness blighted, until death becomes a welcome messenger to carry them out of their miserable existence.

Those who call in time upon DR. PAUL M. BRENAN need have no fear but what he will restore them to perfect health and vigor, make their body pure and their mind content if they will only follow his advice and treatment.

Catarrh, Bronchitis, Throat Diseases, Skin Diseases, Rheumatism, Kidney Complaint and all Diseases of the Eye and Ear, Stomach and Bladder, he can cure without fail. No Quack Nostrums used; no sham treatment; no false promises.

Everything strictly confidential under all circumstances.

Consultation Free, and a list of printed questions sent to those living at a distance who cannot consult him personally. All the Surgical Operations performed.
